

At ADAD Engineering Services, we are steadfast in our commitment to delivering exceptional quality by continuously improving our Quality, Occupational Health & Safety, and Environmental Management Systems. These systems are integral to our diverse range of services, which include:

- **Repair and Maintenance** of Rotating Equipment, Valve Services, Electrical Motors, and Field Services (Installation, Pre-Commissioning, Commissioning, Start-Up, and Repair).
- **General Machining Services**, including Welding and Fabrication, and Non-Destructive Testing (NDT) Inspection Services.
- **Life Support Services**, Field Services, and Trading of Oil & Gas field equipment and related services.

We recognize that the active involvement of every employee is essential to achieving and maintaining the effectiveness of our Quality Management System. To this end, we provide direction and support to ensure all employees understand their roles and responsibilities within the system and are equipped to contribute meaningfully.

Our company sets and reviews quality objectives and targets through a structured management review process. These objectives are aligned with the aspects and impacts of our industry and focus on delivering measurable improvements. We achieve our goals through a commitment to:

- **Continuous Improvement:** Enhancing our processes, services, and products to consistently exceed expectations.
- **Customer Satisfaction:** Maintaining a customer-centric approach to ensure swift and effective responses to client needs.
- **Regulatory Compliance:** Adhering strictly to all applicable statutory and regulatory requirements, ensuring the highest standards of quality and safety.
- **Proactive Quality Management:** Identifying and eliminating quality nonconformities through preventive actions and robust quality assurance practices.
- **Teamwork and Employee Development:** Fostering a culture of collaboration and investing in employee training to enhance skillsets and performance.

ADAD Engineering Services operates with the understanding that quality is not just a goal but a core value that drives every aspect of our business. Our management is dedicated to creating a work environment that supports innovation, accountability, and continuous learning, ensuring we remain at the forefront of our industry.

Through our unwavering focus on quality, we aim to meet and exceed the expectations of our clients, stakeholders, and all relevant interested parties. Together, we strive to uphold our reputation for reliability, integrity, and excellence in every service we provide.
